## SNOWART GENUSSFESTIVAL. ALWAYS AT THE START OF WINTER.

At the SnowArt Genussfestival, everything revolves around culinary and musical enjoyment.

Every year, on the opening weekends in December, winter sports fans have the opportunity to enjoy regional musicians and local culinary arts in selected mountain restaurants.

Various musical talents, offering a diverse range of sounds from rock, pop, folk music, funk, and Schlager to blues and jazz, will create the perfect atmosphere in the mountains across two weekends.

**Program.** All dates and programme info at [www.serfaus-fiss-ladis.at](http://www.serfaus-fiss-ladis.at) or simply scan the QR code.

On top of this, there are attractive ski ticket prices for the start of the season.

## THE FIRST TRACK. SERFAUS. FISS. LADIS.

**Decorate the mountain with your "First Track" before anyone else has the chance! Weekly from 11.12.2024 to 16.04.2025.**

All you have to do is get up early. Because at 7.30am the first cable cars in Serfaus-Fiss-Ladis start to whirr their way up to a snowy paradise. The number of participants is limited. Your reward: An unforgettable experience on a velvety blanket of snow.

In addition to the guided tour, the price includes an **exclusive breakfast buffet** on the mountain, which will be served at around 9.30am at the Zirbenhütte Restaurant in Fiss or in the Ski Lounge in Serfaus. The cable car managers or the heads of the ski school will accompany the "First Track" tour. This way, you get the latest Serfaus-Fiss-Ladis news straight from the horse's mouth!

In order that "First Track" participants don't end up "seeing red" so early in the morning, they should be prepared for a moderately difficult red piste.

**Meeting time:** no later than 7.20am

**Ascent:** 7.30am

### Price in €:

## BEHIND THE SCENES. SERFAUS. FISS. LADIS.

What actually happens behind the scenes at the cable car stations and how do the cable cars actually work? In the Serfaus-Fiss-Ladis region, you can learn these secrets and many more. A tour around the piste preparation machine workshop will give you a small taste of just how much time and careful handwork is required to keep everything running smoothly. While the underground train is an established part of the tour in Serfaus, the tour takes a closer look at the technology of the Schönjochbahn cable car in Fiss. After the tour, we will have coffee and cake together, and we will also be happy to answer any questions.

# SERFAUS UNDERGROUND.

The decision to alleviate traffic in town was made already back in the 1970s. By 1985, the Serfaus underground was fully operational! After more than 30 years, the underground (including stops) was completely renewed and modernised between 2017 and 2019. The renovated train system now offers passengers and guests more than just transport: all stations were thematized and equipped with stories about the development of Serfaus!

**Parking area station:** Family paradise starts here. The access tunnel conveniently connects the parking area with the station. Meanwhile, numerous play stations help to shorten waiting times for kids riding the underground.

**Church station:** Spread over two floors, explore both the village's cultural history and tourism development. Exciting stories about Serfaus will make you forget the time... and you might just miss the next train!

**Center station:** This station is dedicated to the village's clubs and associations, which are presented on large informational boards. There's even a large hidden object picture, i.e. lenticular lens, to entertain kids!

**End station:** This area is dedicated to technology. An exhibition at the station explains in detail how the Serfaus underground works. The highlight is certainly the large adventure machine, which delights visitors young and old!

Find out more about the underground in our weekly look behind the scenes. Reservation essential!

## SUNSET DINNER MASNER. SERFAUS.
